About

Hi, I am a computer science student in Islamabad, Pakistan. My area of expertise is Full Stack MERN Web Development. I am a fast learner, energetic and a dedicated developer who is always eager to improve and learn new skills (very interested in learning Web 3.0/Blockchain). I am very confident that I can be a good option for your team.

Education

- 2018 - 2022 ● COMSATS University Islamabad, Pakistan.
Bachelor of Science in Computer Science
- 2016 - 2018 ● IMCB G-10/4 Islamabad, Pakistan
Intermediate in Pre-Engineering

Projects

- **Simple E-commerce Responsive Application**
October 2020
Tools: React.js, Bootstrap
It is a starter mini e-commerce website for practice purpose.
Hosted Website Link: <https://talha-smartphone-online-shop.netlify.app/>
- **Opportunist (FYP)**
August 2021 - Ongoing
Tools: React.js, Express.js, REST API, MongoDB, Bootstrap, Python
Opportunist is all-in-one Career building and uplifting platform for young students, graduates, entrepreneur. It is my final year project which should be completed soon.
